**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear fcc,

I chose competitive provider because I was completely dissatisfied with AT&T and service-or lack there of. I had them out at least 14 times within a two year. They sent a different technician out each time who wasnt informed as to what the prior technicians had accomplished. The company is too big they dont communicate well. I then switched to Comcast for about three months dealing with poor reception, even poor service, And expensive.

This is America-democracy is about competition not monopoly. If a small company can provide better service at a better price, and the big companies are afraid of that, then they better clean up their act instead of introducing legislation that limits the competition. Broadband is critical to the city of Benicia for our schools and businesses as this area has a hard time with reception. I also use competitive phone service because of the forementioned problems with big companies.

Please Make sure this legislation does not pass.
